

**78th Annual New England, New York and Canadian  
Fruit Pest Management Workshop, 2016  
Research Presentations**

1. Dominique Plouffe: Weather conditions during the growing season influence fruit quality at harvest and in storage
2. Greg Krawczyk: Validation of electronic Z-Trap for monitoring codling moth and oriental fruit moth
3. Kerik Cox: Impact of post-bloom applications of streptomycin and kasugamycin applications on epiphytic bacteria in the apple orchards
4. Kerik Cox: The presence of quiescent *Erwinia amylovora* in apple budwood
5. Srdjan Acimovic & Anna Wallis: 2016 Fire blight outbreak in the Champlain Valley
6. Terry Bradshaw: Management of rusts and other diseases in organically-grown scab-resistant apple cultivars with biopesticides and copper
7. Alessandro Dieni: IRDA project and survey on "Adaptation of the phytosanitary measures against pests and diseases of fruit crops in the context of climate change"
8. Jon Clements: RIMpro intro to US
9. Dan Cooley & Jon Clements: Performance of four decision support systems for apple scab management
10. Art Agnello: Black stem borer management trials – 2015-16
11. Kerik Cox: The fungi and bacteria associated with the black stem borer and its galleries in apple
12. Jon Clements: MyIPM-SED, -NED, -SEP apps -- alphabet soup or what????
13. Sara Villani: Apple Disease Management Down South: A Rottin' Experience
14. Keith Yoder: Apple disease activity spectrum and effectiveness of SDHI-related fungicides and mixtures
15. Keith Yoder: Rust control and apple bloom thinning with lime sulfur and Regalia/JMS Stylet-oil
16. Kristy Grigg-McGuffin: Management of European apple sawfly and apple leafcurling midge in Ontario orchards
17. Peter Jentsch: Developing Attract-and-kill strategies to manage Spotted Wing *Drosophila*, *Drosophila suzukii* Matsumara, in raspberry
18. Tim Lampasona: Urban and agricultural Attract-and-kill strategies to manage the Brown Marmorated Stink Bug

**Tuesday Discussion Session**

- Evolution, ecology and economics of Apple IPM: A 35-year perspective. Robin Spitko, Glenn Morin, Raphael Vega
- Observations on the fire blight infections in 2016. Vincent Phillion, Kari Peter
